

Under the Sea

How to use:

Ask the children if they know anything about the landscape picture. Where is it? What do they recognise?

Look at the objects, do they know the name of any?

Cut out the objects and the words, match them together (laminates them and the landscape for repeated use!).

Discuss what each one is used for.

Get children to add images to the landscape to create a scene.

Extend:

Can they write sentences about the scene?
